Voice over script

Hi! Welcome to XMPie uPlan training.

In this series of videos, we explore uPlan and QLingo – the logic behind all aspects of XMPie’s VDP, Cross Media and web-to-print offerings.

Thumbnail

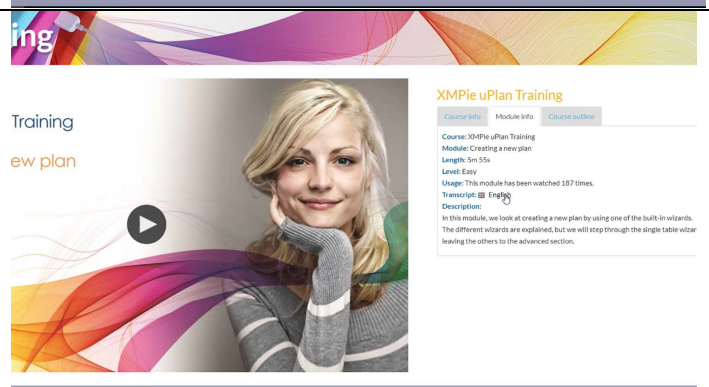

The training is separated into different sections. Simply click on the section to view the available topics.

When you click on a module, the selected video will load into the main area.

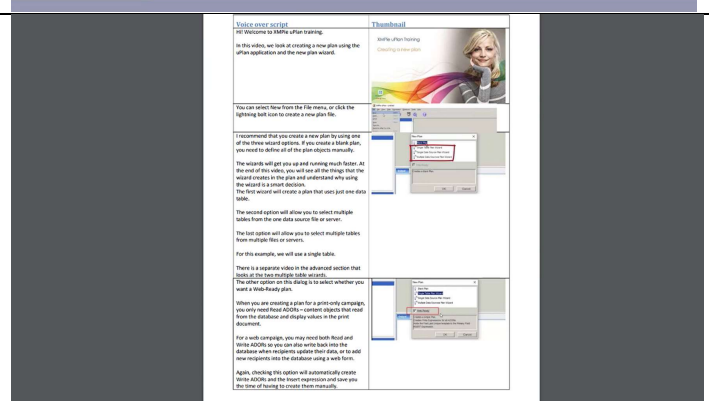

The green play icon highlights the module which is currently displayed. The tick icon shows that you have watched this module, and the blue play icon shows modules which have not been watched.

Here, you can find more information about the currently selected module –

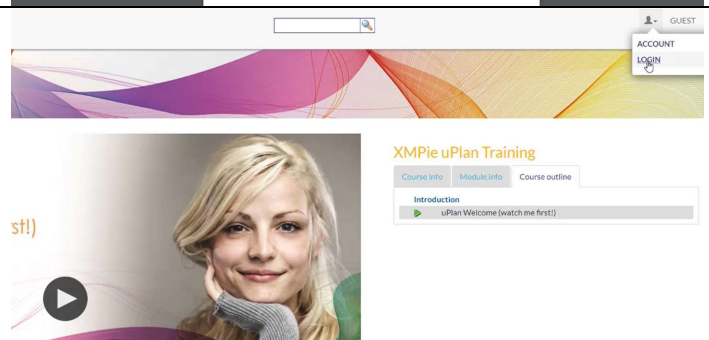

including a complete transcript of the video that you can download and refer to later.

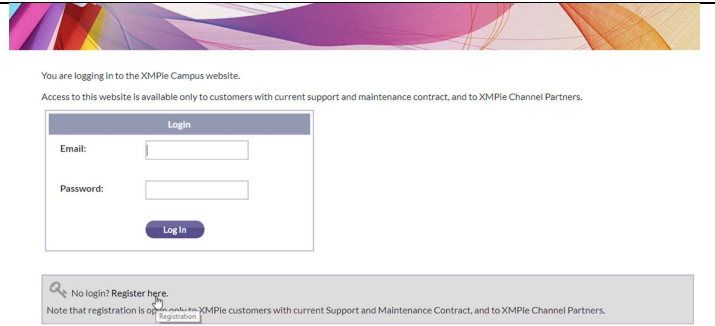

You can view the videos in any sequence and jump to the topic you need, skipping the ones you don't.

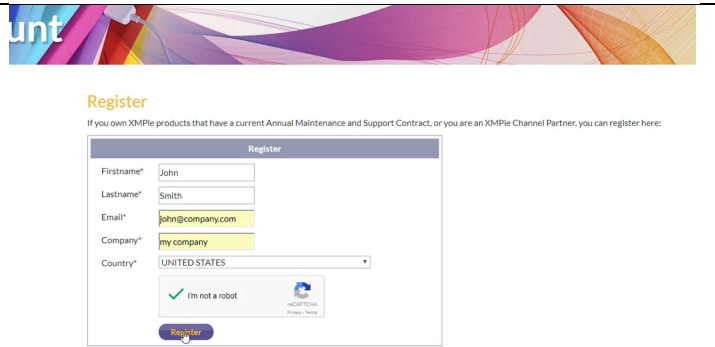

If you only see only this welcome video, then you need to login.

If you don't have credentials, just use the registration form. Access to Campus is one of the benefits of your XMPie annual support and maintenance contract.

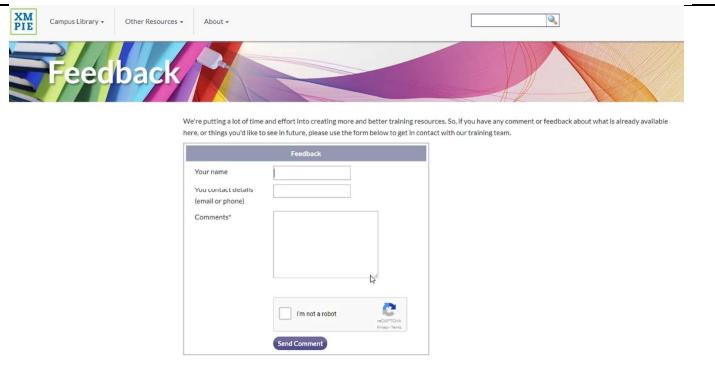

Please enter your company name and use a work email address to help us identify your support contract or partner status.

If the website can't find you straight away, allow us 24 hours for us to search manually.

More topics will be added over time, so check back for new and updated material from time to time.

Also, if you can't find what you want, use the feedback form, and we will try to create something new, or point you towards existing materials.
